Sasquatch

The name 'Sasquatch' sends shivers down even the most grizzled man's spine. Today, the Sasquatch has retreated into folklore. Dark and robust, both Sasquatches are known to be found lurking around a crackling fire. The only difference is, with our stout, you will have the opportunity to experience it more than once.

Tasting notes

Voted "Best Beer in Canada" for 2014, the Sasquatch Stout is smooth with notes of mocha, coffee and roasted barley. Match our Sasquatch with a steak, oysters or even chocolate cake!
